

## *Context of Morning Worship*

*By Marcus Lander (February 2022)*

I have been participating as a volunteer litter picker in the Tile Hill area for some months now, and I find it has been a vocation I am well suited to. This has become for me a kind of quiet time of devotion and reflection and I now look forward to the hour or so I spend engaged in this activity on a Sunday morning. Owing to a positive coronavirus test I was stuck in isolation and unable to go out on my usual Sunday morning round, so I thought I would write a poem about it instead and what I have drawn from my experiences.
